WORKING WITH ME

Personal, Corporate and Government Relocation is a growing segment of the real estate industry. Corporate mergers, reorganizations, and job promotions fuel the need for companies to move employees from one location to another, around the country or the world. With dual careers, school-age children, and multi-generational households, moving can impact more than just the transferee. Others may just feel the need to have a second home in a warmer location, so no matter where you are in life, the moving and relocation process can easily become over whelming and expensive. Your REALTOR® will most likely be the only person whom the transferee will interact with in person.
